A: In your code, you don't have to manually add header if you are using Request module. Using Request module, first request.json is sent, and it is base64 encoded. Then, you can decode the result with Base64js. You don't need to decode the base64 encoded data to decode your JSON response.

Request module already does that. This is the sample code that I have used for testing.

```
var express = require('express') , app =  
express() , fs = require('fs') , request =  
require('request') , path = require('path') ,  
bodyParser = require('body-parser') , mime
```

```
= require('mime') , crypto =  
require('crypto'); app.use(bodyParser.json())  
app.get('/getdata', function (req, res) {  
  console.log(" REQ"); console.log(req.body);  
  var url = "" var header = { 'content-type' :  
  'application/json; charset=utf-8' } var  
  options = { url:url, headers: header };  
  request(options, function (error, response,  
  body) { if (error) { console.log(error);  
  console.log(error.message); return; } if  
  (response.statusCode == 200) {  
  console.log("Ok");
```

Marvellous Jennifer, Your voice was fabulous, a perfect match for Ivona! (I can. Felicia Wilmoth. Jennifer Iris. Ivona TTS. Ivona. US: Jennifer.1.4.21.iTunes.{31288d6d8b4d4d14dcfd4e057d359c61e7047869})

or not. Ivona tts us jennifer 1.4.21.Stoke's
Potters aim to emulate United model It is
that competition between rival clubs, not
just with each other, which creates the
greatest potential for success. Share The
pressure is building for Stoke City as the
race for the Barclays Premier League title
hots up. That situation applies to the Potters,
but if Paul Lambert's side are to emulate
Manchester United's win as champions 18
months ago, it will not just be on the pitch.

There will have to be plenty of financial muscle in place to pay the wages demanded by that competition, and the city's voice will have to be heard. It will be no coincidence that, when it comes to signing any new players, even if it is from close to the top of the relegation league, Lambert is similar to former boss Alex Ferguson in his insistence on seeing where the market lies. There may be pressure on the manager's back to find the right targets and in that respect, the fact that the next transfer window does not actually start until January has added to his

stress. There is no negotiating with clubs over the summer, although making sure there are no loan deals is another problem in itself for a manager who wants to understand where his squad are at any one time in time. But at the end of a long season, there have been enough close run finishes to convince Lambert that it is so much easier if your targets are secured sooner rather than later. 3e33713323
