In Lara Croft and the Guardian of Light, you'll play as Lara as she takes on the mysterious enchantress and her cursed family once again. You'll travel through stunning locations, from snowy mountaintops to sun-drenched jungles, and piece together the enchantress' twisted scheme. The Evil Within combines intense psychological thrills with visceral horror in an atmospheric world of horrors and terror - a world where sanity is just an illusion. The game is inspired by the movie the Exorcist and the psychological thriller genre. The Evil Within is an extreme horror game that will keep you on the edge of your seat. It will challenge your reaction time, and put your belief to the test. The enemies you'll face are horrifying and lifelike, at times you'll even hear their thoughts and realise they are truly alive - but you are not their sole target - you are the one hunted. The Evil Within is coming to consoles and PC on the 5th of August 2014. Experience all the action of the dramatic events that took place during the prologue in the standalone chapter, Deathtrap. \* CHAPTER ONE: DEATHTRAP \* The game opens with a prologue that takes place in a submarine. During a routine surveillance, the submarine is caught in an accident and it's deflagrated, causing the fuel tanks to explode. The investigators are taken to a special interrogation room where the suspect is to be captured. Soon after he is alerted to the new person captured, he escapes from his cell and opens the doors... You play as Space, and your task is to reach the moon's surface by building and expanding your home using available food and resources. If you're hungry for the moon, keep exploring it's vast interior and hunting for forgotten items. Look around you and explore to discover the best of what the moon has to offer. Your hunger will grow stronger with every new item you discover, so use the gems you earn within your Solar Dome to keep it fed. Once you've grown enough to enter outer space, you can begin the final phase of your journey home. You'll use the guide fins that you've collected to steer yourself through the neon-lit rings around the moon's surface and return to Earth. During this crucial phase, the moon's gravity can be stronger than anticipated. It might be possible to miss your target and come crashing back to Earth. If you make a successful landing, you can rest
