## Album Player Crack + Free X64

Track by Track player adds more feature by this player, you can add new audio tracks or audio files, you can import or export the files, you can choose the image files/ LYRIC to play along them, you can edit the LYRIC while you are looking your own photo album/collection in JPG format. The program file is small, it is fit to put in to the CD/DVD, so you can burn your own music/lyric/photo album in CD. Make sure, you can't edit the lyric after you burn in CD, but still editable in the hardisk. So all you need to do is to choose the pictures and the audio tracks you want to play.
